SLEEPY HOLLOW RESIDENT NOTICE

Irrigation & Topsoil Work

Dear Sleepy Hollow Residents,

Over the next **four weeks**, we will be completing irrigation installation throughout the Sleepy Hollow neighborhood. **S&S Sprinkling will begin irrigation work on Tuesday, September 22nd**, and crews will continue working throughout the neighborhood as the project progresses.

Important Resident Information:

- Please make sure your **irrigation controller box is accessible** and not blocked by landscaping, vehicles, or other items so the S&S Sprinkling technician can easily reach it.
- There will also be a crew working throughout the neighborhood to **level and dress the topsoil** around the properties.
- As part of the restoration work, we will **spread grass seed** throughout the disturbed areas for final seeding.
- Landscaping will also be restored during this period.
- Residents may see construction crews and equipment in the area while this work is being completed.
- Please be mindful of crews working near driveways, sidewalks, and lawns.

We appreciate your patience and cooperation while we complete this work. Our goal is to minimize disruption and leave each property in good condition as the work progresses.

Thank you,

Cutting Edge Excavating
Project Management Team
